

# Yun-Hsia HO

## Junior Web Developer

A 24 y/o Taiwanese girl living in Liege, Belgium. I love creating beautiful works and solving puzzles. Somehow it brought me to the world of web dev.

My interest in languages and my Asian origin help me to see the world in different ways, and it can be a advantage of designing website, especially for front-end.

yun-hsia-ho

### Languages

- Chinese - Mother tongue
- English - C1
- French - B2
- Japanese - B2
- Taiwanese - B1

### Hobbies

- Japanese Culture
- Piano
- Handmade Arts/DIY

## EXPERIENCE

### Easylog Solutions - Liege Airport

Logistic employee

Oct 2020 - Dec 2020

Helping and advising clients shipping merchandises from China to Europe by cargo airline or e-commerce transportation systems.

I coordinated with the customs, local warehouse workers and transportation companies to find the most efficient way to bring the merchandises to their final destination.

## EDUCATION

### BeCode - Liege Campus

Junior Web Developer

Jan 2021 - Jul 2021

A 7-months web development training session. I've learned the basic tech skills for front-end and back-end, and also the soft skills like self-teaching, making the best use of knowledge resources and negotiating between group members in every project

### National Taiwan Sports University - Taiwan

Bachelor degree in Athletic Training & Health, with a major in Fitness and Health.

Sep 2014 - Aug 2019

This major gave me, amongst others, the required knowledge and hands-on practice to design fitness programs to help people achieve their objectives (maintaining elder's physical health, losing weight, gaining muscles, etc.)
